

9th Endoluminal Technology Symposium in Kobe 2025

Endourology Hands-on Training Workshop

Saturday, **November 29**, 2025 14:00 - 16:30

Venue: Room 1 · 2, 3F, The Kobe Chamber of Commerce and Industry (KCCI)

Participants: 20 (open to domestic and international attendees)

Objective

Hands-on training with a focus on f-URS and ECIRS, led by five distinguished instructors.

- f-URS Station: Flexible ureteroscopy using porcine models, with emphasis on scope manipulation and one-surgeon basketing technique.
- ECIRS Station: Hands-on practice in ultrasound-guided renal puncture, utilizing ALDAVER phantom models to enhance proficiency in these critical ECIRS skills.
