

# Satellite Meeting of ICMS2013 in Sendai

## "Molecular Simulation of Liquids and Interfaces"

**Organizer** The Molecular Simulation Society of Japan  
Theoretical and Computational Chemistry Initiative  
**Date** November 22 (Fri.), 2013  
**Place** Lecture Room 4, Department of Chemistry  
Tohoku University  
(東北大学化学系講義棟 第四講義室)

### Program

- 13:00 - 14:00 Ward H. Thompson (University of Kansas)  
*Dynamics of Nanoconfined and Bulk Liquids*
- 14:00 - 14:30 Shinji Kajimoto (Tohoku University)  
*Hydrogen-Bond Breaking during Phase Separation in Triethylamine-Water Mixture: A Molecular Dynamics Study*
- 14:45 - 15:45 Pavel Jungwirth (Academy of Sciences of the Czech Republic)  
*Photoionization in Water: Electrons, Cationic Holes, and DNA Damage*
- 15:45 - 16:15 Tatsuya Ishiyama (Tohoku University)  
*Structure and Vibrational Spectra at Water/Vapor and Ice/Vapor Interfaces: Molecular Dynamics Study Combined with QM/MM Calculations*
