

IFDAS2018 Poster Presentation

Submission No.	Poster No.	Date	Venue	Title
C000018	P1-15	Oct 5	Reception Hall 2	Evaluation of catabolism and level of adipocytokine during surgery after preoperative oral carbohydrate loading
C000019	P1-24	Oct 5	Reception Hall 2	The addition of 2 ppm dexmedetomidine produces enhancement of local anesthesia effect equivalent to addition of 1:80,000 adrenaline
C000022	P1-25	Oct 5	Reception Hall 2	Study of the awareness of Russian patients about the use of disposable cartridge syringes in dentistry
C000023	P2-29	Oct 6	Reception Hall 2	Ways to address the issue of standardization of carpal technology in Russian dentistry
C000024	P2-2	Oct 6	Reception Hall 2	Total Cardiovascular Risk Assessment in Oral Surgery in the Elderly Patient Sedated
C000025	P1-26	Oct 5	Reception Hall 2	Does a patient-preferred aroma for dental topical anesthetic affect anxiety and fear prior to dental local anesthesia? A randomized trial
C000028	P1-10	Oct 5	Reception Hall 2	Effects of dexmedetomidine on circulatory dynamics and cardiac function in rats administered chlorpromazine
C000030	P1-1	Oct 5	Reception Hall 2	Effects of vasopressin in local anesthesia on the nerve conduction of mouse tail
C000032	P1-12	Oct 5	Reception Hall 2	Duration of linalool odor-induced analgesia in mice
C000033	P2-14	Oct 6	Reception Hall 2	A Case of Various Electrocardiographic Changes during General Anesthesia
C000034	P1-27	Oct 5	Reception Hall 2	Analysis of patients with suspected local anesthetic allergy in Osaka University Dental Hospital
C000036	P1-16	Oct 5	Reception Hall 2	MULTIMODAL ANALGESIA IN THE LONGTERM SEDATION OF ADULT IN AMBULATORY STOMATOLOGY PAYKUSH V, ANDRIEVSKA N, BILOUS A, SIRYY V. Clinics MM, Zablotsky, Naturelle. Ukraine
C000037	P2-5	Oct 6	Reception Hall 2	Analysis of children in the aspect of the need for treatment under general anesthesia Ukraine
C000038	P1-6	Oct 5	Reception Hall 2	APPLICATION OF THE ANALGOSEDATION IN DENTAL TREATMENT OF ANTITERRORIST OPERATION (ATO) SOLDIERS, FIGHTING IN ACTION
C000039	P2-34	Oct 6	Reception Hall 2	Influence of PTS stopcock status on the natural frequency of blood pressure-transducer kits
C000040	P1-8	Oct 5	Reception Hall 2	Pain induction suppresses sucrose preference in mice.
C000041	P1-17	Oct 5	Reception Hall 2	A COMBINATION OF INTRAVENOUS SEDATION AND LOCAL ANESTHESIA IN DENTAL TREATMENT OF ANXIOUS ADULTSDydyk N1,2 Paykush V 21 Lviv Medical University 2 Zablotsky Clinic
C000044	P1-13	Oct 5	Reception Hall 2	Ivabradine inhibits LPS-stimulated inflammatory cytokine production in the mouse macrophage-like cell line Raw264.7, but not via HCN-2 and HCN-4 channels
C000045	P2-3	Oct 6	Reception Hall 2	Effects of briefing on job performance of dental staff providing general anesthesia for patients with disabilities
C000046	P2-7	Oct 6	Reception Hall 2	Management of a malignant pheochromocytoma patient undergoing oral surgery
C000047	P2-15	Oct 6	Reception Hall 2	A muscle relaxant does not necessarily cause trismus in patients with masticatory muscle tendon-aponeurosis hyperplasia

IFDAS2018 Poster Presentation

Submission No.	Poster No.	Date	Venue	Title
C000048	P2-16	Oct 6	Reception Hall 2	Sugammadex induced anaphylactic shock noticed when intense urge to urinate.
C000049	P2-17	Oct 6	Reception Hall 2	Three-dimensional computed tomography and nasopharyngoscopy for nasotracheal intubation after pharyngeal flap construction
C000050	P1-35	Oct 5	Reception Hall 2	Algorithm of dental care for patients with hypertension
C000051	P2-18	Oct 6	Reception Hall 2	Loss of a premolar tooth just before laryngeal mask airway insertion
C000052	P1-3	Oct 5	Reception Hall 2	An analysis of diurnal variation in pain sensitivity in trigeminal areas using an animal model of acute and persistent pain.
C000054	P2-31	Oct 6	Reception Hall 2	Individual chest compression training using manikin with feed-back system can achieve sufficient improvement as usual group training.
C000056	P2-6	Oct 6	Reception Hall 2	Relationship between anesthesia types and postoperative quality of life after iliac crest bone grafting of the alveolar cleft
C000057	P1-14	Oct 5	Reception Hall 2	Study on efficient induction of odontoblasts differentiation.
C000059	P2-32	Oct 6	Reception Hall 2	Effective of cricothyrotomy training using Mini-Trach II Seldinger Kit on dental students
C000060	P1-18	Oct 5	Reception Hall 2	Remifentanil effectively suppresses the gag reflex when supplemented during intravenous sedation
C000061	P2-19	Oct 6	Reception Hall 2	Anesthetic Management of a Patient with Limb-Girdle Muscular Dystrophy for Maxillofacial Surgery
C000062	P1-11	Oct 5	Reception Hall 2	Rapamycin becomes the sevoflurane vasodilator effect apparent in the rat artery
C000064	P2-20	Oct 6	Reception Hall 2	A case report of the patient who developed lethal tension pneumothorax following mandible open reduction and internal fixation under general anesthesia
C000065	P1-19	Oct 5	Reception Hall 2	Moderate propofol sedation impairs intraoral water holding ability but not voluntary swallowing ability in the supine position
C000066	P2-21	Oct 6	Reception Hall 2	Day-care General Anesthesia of a Pediatric Patient with Type 1 Osteogenesis Imperfecta
C000067	P1-33	Oct 5	Reception Hall 2	Effects of remifentanil on circulatory enhancement caused by epinephrine: A power spectrum analysis
C000068	P1-2	Oct 5	Reception Hall 2	Effects of 2% lidocaine with 1:80,000 epinephrine on pulpal blood flow and oxygen tension in rabbits
C000069	P2-1	Oct 6	Reception Hall 2	Serum level of creatinine kinase following surgical treatment of jaw deformity
C000070	P1-4	Oct 5	Reception Hall 2	Influence of changes in end tidal carbon dioxide tension on oral tissue oxygen tension during remifentanil infusion
C000071	P2-22	Oct 6	Reception Hall 2	A case of anaphylaxis due to unknown cause
C000072	P1-39	Oct 5	Reception Hall 2	Usefulness of Airway Scope for Intubation of Infants with Cleft Lip and Palate -Comparison with Macintosh Laryngoscope-

IFDAS2018 Poster Presentation

Submission No.	Poster No.	Date	Venue	Title
C000073	P2-23	Oct 6	Reception Hall 2	The experience of general anesthesia for Dental Rehabilitation of a Patient of 2 y.o with Congenital cytomegalovirus infection.
C000075	P1-5	Oct 5	Reception Hall 2	Brain Protection of Dexmedetomidine in Perioperative Model.
C000076	P2-24	Oct 6	Reception Hall 2	Anesthetic management of a patient with polycythemia vera and essential thrombocythemia for maxillectomy
C000077	P2-25	Oct 6	Reception Hall 2	A Case of Asthma Attacks Caused in Each Two General Anesthesia of Same Patient
C000079	P2-26	Oct 6	Reception Hall 2	Sedated fiberoptic nasotracheal-intubation for patients with difficult airway
C000082	P1-29	Oct 5	Reception Hall 2	EFFIENCY ASSESSMENT OF LOCAL ANESTHESIA DURING DENTAL AMBULATORY INTERVENTIONS
C000084	P2-30	Oct 6	Reception Hall 2	Using of the program of automated application of the algorithm for rendering dental care to patients with concomitant pathology in conditions of outpatient department
C000085	P1-36	Oct 5	Reception Hall 2	HYPERSENSITIVITY REACTION TO LOCAL ANESTHETICS IN DENTAL PATIENTS
C000086	P1-37	Oct 5	Reception Hall 2	Using of the technique of conflict-free communication in the provision of dental care to patients with psychoemotional disorders
C000088	P2-8	Oct 6	Reception Hall 2	A case of anaphylactic shock with only cardiovascular signs under general anesthesia
C000090	P1-20	Oct 5	Reception Hall 2	The Use of Bispectral Index Monitoring throughout the Intravenous Dental Analgosedation in Adults.
C000091	P2-27	Oct 6	Reception Hall 2	Two cases of Hoarseness following Orthognathic Surgery
C000092	P1-9	Oct 5	Reception Hall 2	Electrophysiological properties of P2X7 receptor in neurons derived from rat trigeminal ganglion.
C000093	P1-7	Oct 5	Reception Hall 2	Development and implementation of a test control program for the knowledge and skills of dentists in the prevention, diagnosis and treatment of emergency conditions
C000094	P1-38	Oct 5	Reception Hall 2	The choice of local anesthesia for patients with angina .
C000095	P1-28	Oct 5	Reception Hall 2	Clinical evaluation of the safety and efficacy transcortical anesthesia during dental implantation to patients with concomitant pathology
C000096	P1-40	Oct 5	Reception Hall 2	The morphology of the nasal septum of jaw deformity patients
C000097	P2-4	Oct 6	Reception Hall 2	Approach to dental hygienist students on dental anesthesia at Yokohama City Center for Oral health of Persons with disabilities
C000098	P2-28	Oct 6	Reception Hall 2	Importance of behavioral adjustment for introduction of intravenous sedation among persons with disabilities
C000099	P1-30	Oct 5	Reception Hall 2	Assessment of neurosensory complications of the mental nerve following dental treatment using current perception threshold
C000101	P1-21	Oct 5	Reception Hall 2	USE OF GENERAL INSULATION FOR THE PROJECTING OF PERMANENT MOLARERS IN CHILDREN WITH DISABILITIES WITH DISEASES OF CENTRAL NERVOUS SYSTEM

IFDAS2018 Poster Presentation

Submission No.	Poster No.	Date	Venue	Title
C000102	P1-22	Oct 5	Reception Hall 2	ENDODONTIC TREATMENT OF TEMPORAL TEETH IN CHILDREN WITH DISABILITY WITH DISEASE OF THE CENTRAL NERVOUS SYSTEM UNDER GENERAL DECONTAMINATION
C000103	P1-23	Oct 5	Reception Hall 2	The effects of different pulse oximeter application sites on blood oxygen saturation measurements during intravenous sedation
C000104	P2-33	Oct 6	Reception Hall 2	STUDY OF EFFICIENCY OF ANESTHESIS TRAINING BASED ON HEART LUNG REANIMATION
C000105	P2-12	Oct 6	Reception Hall 2	Intravenous sedation management for a patient with severe heart failure before Fontan procedure
C000106	P1-31	Oct 5	Reception Hall 2	Evaluation of Orofacial pain by PainDETECT
C000107	P2-9	Oct 6	Reception Hall 2	Atrioventricular block due to unexpected acute myocardial infarction in ward: A case report
C000108	P1-34	Oct 5	Reception Hall 2	Investigating methods for managing general anesthesia while maintaining spontaneous respiration with low-concentration remifentanyl
C000109	P2-10	Oct 6	Reception Hall 2	Septic shock with multiple organ failure due to acute exacerbation of an infectious dental disease
C000110	P2-13	Oct 6	Reception Hall 2	Intravenous sedation with a combination of dexmedetomidine and propofol: a case of a patient with chronic respiratory failure and somatoform disorder
C000111	P1-32	Oct 5	Reception Hall 2	Pain catastrophizing scale (PCS)-magnification correlates the period of acute post-operative pain in orthognathic surgery
C000114	P2-11	Oct 6	Reception Hall 2	A case of laryngeal spasm after extubation following cleft lip and palate surgery
C300000	P2-35	Oct 6	Reception Hall 2	A case of the temporomandibular joint dislocation and literature consideration
