

[Track3] Coated Cladding Development for BWR

• Westinghouse BWR Coated Cladding Development

Johan Nyman(Westinghouse Electric Sweden AB),Zaheen Shah(Westinghouse Electric Sweden AB),Antoine Claisse(Westinghouse Electric Sweden AB),Magnus Limbäck(Westinghouse Electric Sweden AB),James Rafferty(The University of Manchester),Fabio Scenini(The University of Manchester),Mia Maric(The University of Manchester),Philipp Frankel(The University of Manchester),Andrea Fazi(Massachusetts Institute of Technology),Arunkumar Seshadri(Massachusetts Institute of Technology),Souichirou Yamaguchi(Toshiba Corporation),Masao Owaki(Toshiba Corporation)

• PROtect BWR: The evolutionary E-ATF solution by Framatome for Boiling Water Reactors

Karl Buchanan(Framatome SAS),Sean Gray(Framatome Inc),Thomas Garnier(Framatome SAS),Nicolas Vioujard(Framatome SAS),Kevin Mon(Framatome Inc),Andreas Meyer(Framatome GmbH),Roland Geier(Framatome GmbH)

• Development of CrAlOx vs YAlOx Multilayer Coatings for Enhanced Corrosion of Zircaloy Claddings under BWR and LOCA Conditions

Sumit Bhattacharya(Argonne National Laboratory),Ryan Crichton(Argonne National Laboratory),Mackenzie Ridley(Oakridge National Laboratory),Caleb P. Massey(Oakridge National Laboratory),Abdellatif Yacout(Argonne National Laboratory)
