

【Track4】 Modeling for Advanced Technology Fuels (ATF) I

Preliminary Study on Thermal Homogenization and Local Temperature Reconstruction of Fully Ceramic Microencapsulated Fuel

Linyi Yang

École Polytechnique Fédérale de Lausanne

Development and Application of Hydrogen-Based Limits for Advanced Fuel Products to Support High Energy Fuel Operation

Timothy M Crede

Westinghouse Electric Company

Lightbridge Irradiation Testing and Fuel Performance Modeling Plan for Fuel Qualification

Kyle Paaren

Lightbridge Corporation

Applicability of U-Zr Metallic Fuel for Light Water SMRs: Thermo-Mechanical Behavior Analysis using FEMAXI-7

Keizo Matsuura

Fukui University of Technology
