

【Track3】 Performance under High Temperature Conditions

Air oxidation of Cr-coated Zircaloy-4

Diana Bachurina

Karlsruhe Institute of Technology

Integral Investigation of Air Ingress Effects on Chromium-Coated Fuel Rods in the CODEX-ATF-AIT Experiment

Robert Farkas

HUN-REN Centre for Energy Research

Practical Safety Benefits of Cr-coated ATF Cladding: Constraints from Post-quench Ductility and Post-burst Degradation

SungHoon Joung

Seoul National University

Recent Development of Steady State and Ramp Testing Capabilities for ATF at INL

Chuting Tsai

Idaho National Laboratory
